## Brand new TOP SMILE RECORDS 3 x 7 inch vinyl issue:

Top Smile Records and reggae fever.ch are back with the second batch of three 7 inch vinyls from High Smile HiFi.

The Switzerland based production combo has teamed up with Birmingham/UK residents Tenna Star and Ras Negus I, who delivered two excellent conscious tunes on the riddim called Soundkilla. On 'Be Smart', Tenna Star give us guidance to withstand the babylon system and encourages the listener to waste no more time and make a start for a better tomorrow. Ras Negus I delivers a similar message on 'Seeking a way out': To break free from babylon system.

Two great tunes on a great riddim from two outstanding singers !

For the third 7 inch, the crew has worked with Jamaican reggae legend Little Harry. No further introduction needed as I would say. The powerful digital production is called 'Hard Life' and comes with a Yamaha CS-01 bassline. On this one, Little Harry aka The Youngest Veteran, give us an insight of the hard life people living down in Jamaica and he's deejaying about the daily struggle to survive. After so many years in the game, he's still standing strong and delivers also a positive message.

All three 7 inch singles are produced in the same modern and yet vintage digital style that we know from High Smile HiFi's previous productions and this batch here definitely makes appetite for more...
